Termonmaguirc Parish Graveyards
(Carrickmore, Loughmacrory & Creggan)
Guidelines

1 It is not possible to reserve a plot before it is required in the graveyards.

2 As required, the next plot in rotation will be allocated, either single or double.

3 A donation to the Parish of £50 is requested per new single plot, £100 for a double plot. When erecting headstones or memorials on graves, families and the monumental mason must consult with the Parish Guidelines to ensure suitability. Headstones should not be higher than 4 feet and the surround, where permitted, including its concrete base, must not extend beyond the boundaries of the allocated plot. Care must be taken not to encroach into an adjoining plot.

4 New graves are required to be dug to a minimum depth of 6 feet, 6 inches in order potentially to accommodate three burials in a single plot, so that the long term viability of the Parish burial ground can be sustained.

5 On the occasion of a death, families wishing to bury in any grave, new or existing, in the Parish Graveyards should request their undertaker to consult with the Parish Guidelines.

6 The Parish Graveyards Committee, in consultation with other Parish Committees, will review and alter these provisions as needs dictate and new circumstances arise.

Guidelines approved by the Parish Graveyards Committee,
the Parish Pastoral Council and the Parish Finance Committee May 2017
