Parochial House Carrickmore (1 & 1A) Owing to the deteriorating condition of 1A and the onset of damp in No 1, an extensive report was carried out in June 2018. The summary stated that "To carry out all the above repairs to both No 1 and No 1A could be excessive in terms of cost, a renovation will still leave the parish with an old house with the damp treated temporarily or totally replaced to remove the problem". The report was discussed at length with the Parish Finance Committee.
In September 2021 the report was further discussed with the Diocesan Buildings Committee. The outcome of that meeting has concluded that both properties are no longer viable and have become unwieldly to maintain and repair and are no longer fit for purpose in layout and design, for either habitation or administration. One new single house will represent considerable savings to the Parish in the long term in upkeep and maintenance. We are now in a position to progress to the next stage of development on the present site.
